APTA Key Contact

What is the Key Contact Program?

The Key Contact Program was started in the Spring of 1987. The goal is to have an APTA member develop a close working relationship with every U.S. Representative and Senator. The Key Contact Program is a grassroots lobbying network of physical therapy practitioners who serve as the primary contact with their Federal Representative. The purpose of this program is to establish valuable relationships with legislators to increase their awareness of the physical therapy profession. These friendships are crucial to keep Congress aware of the issues that face physical therapy both on a daily basis and in the long term.

What is a Key Contact Responsible For?

- Establishing and maintaining a relationship with their Member of Congress and key members of their staff.
- Providing information on critical physical therapy issues to their Member of Congress.
- Participate in Practice Visits, District Meetings, Town Hall Meetings, and Campaign Events sponsored by PT-PAC to Build Your Relationship with Your Member of Congress.
- Establishing a network of physical therapists that live in the State/Congressional District of individual Members of Congress who will send e-mails or make telephone calls to those Members in support of a legislative priority.
